CONTENTS

Special Issue: A Selection of Papers from the JRC/ESReDA Seminar on Safety Investigation of Accidents, Petten, The Netherlands, 12–13 May, 2003

Introduction

Safety investigation of accidents
C. Kirchsteiger (Petten, The Netherlands) ix

The need for a European Union approach to accident investigations
S. Marinho de Bastos (Brussels, Belgium) 1

Cross Industry Topics

Accident investigation practices in Europe—main responses from a recent study of accidents in industry and transport
S. Roed-Larsen (Oslo, Norway), T. Valvisto (Helsinki, Finland), L. Harms-Ringdahl (Stockholm, Sweden) and C. Kirchsteiger (Petten, The Netherlands) 7

Relationships between accident investigations, risk analysis, and safety management
L. Harms-Ringdahl (Stockholm, Sweden) 13

An inquiry of the opinions of the French and Belgian populations as regards risk
B. Carlé (Mol, Belgium), S. Charron, A. Milochevitch (Fontenay-aux-Roses, France) and F. Hardeman (Mol, Belgium) 21

Comparison of some selected methods for accident investigation
S. Sklet (Trondheim, Norway) 29

Independent accident investigation: a modern safety tool
J.A. Stoop (Delft, The Netherlands) 39

Decision support systems for risk mapping: viewing the risk from the hazards perspective
A. Gheorghe (Zurich, Switzerland) and D. Vamanu (Bucharest, Romania) 45

Energy Sector

Severe accidents in the energy sector: comparative perspective
S. Hirschberg, P. Burgherr, G. Spiekerman and R. Dones (Villigen, Switzerland) 57

Operational experience feedback in the World Association of Nuclear Operators (WANO)
R. Revuelta (Paris, France) 67

Methods and practices used in incident analysis in the Finnish nuclear power industry
S. Suksi (Helsinki, Finland) 73

Probabilistic analysis of accident precursors in the nuclear industry
M. Hulsmans and P. De Gelder (Brussels, Belgium) 81

Emergency preparedness and response: compensating victims of a nuclear accident
J. Schwartz (Issy-les-Moulineaux, France) 89

Safety investigation of team performance in accidents
G. Petkov (Sofia, Bulgaria), V. Todorov, T. Takov, V. Petrov, K. Stoychev, V. Vladimirov and I. Chukov (Kozloduy, Bulgaria) 97

Transport Sectors

Accident versus near miss causation: a critical review of the literature, an empirical test in the UK railway domain, and their implications for other sectors
L. Wright (Utrecht, The Netherlands) and T. van der Schaaf (Eindhoven, The Netherlands) 105

Credible investigation of air accidents
K. Smart (London, UK) 111

Methods of multidisciplinary in-depth analyses of road traffic accidents
L. Larsen (Kongens Lyngsby, Denmark) 115

Training rail accident investigators in UK
S. Watson (Cambridge, UK) 123

First lessons of the Toulouse ammonium nitrate disaster, 21st September 2001, AZF plant, France
N. Dechy, T. Bourdeaux, N. Ayrault, M.-A. Kordek and J.-C. Le Coze (Verneuil-en-Halatte, France) 131

Process Industry

Central collecting and evaluating of major accidents and near-miss-events in the Federal Republic of Germany—results, experiences, perspectives
H.-J. Uth and N. Wiese (Berlin, Germany) 139

Organisational accidents investigation methodology and lessons learned
Y. Dien (Clamart, France), M. Llory (Gallargues le Montueux, France) and R. Montmayeul (Clamart, France) 147

Incidents/accidents classification and reporting in Statoil
R. Berentsen and R.H. Holmboe (Stavanger, Norway) 155

Best practices in incident investigation in the chemical process industries with examples from the industry sector and specifically from Nova Chemicals
L.M. Morrison (Moon Twp., PA, USA and Gibsonia, PA, USA) 161

Summary

Summary of JRC/ESReDA Seminar on Safety Investigation of Accidents, 12–13 May 2003, European Commission, DG JRC-IE, Petten, The Netherlands
C. Kirchsteiger (Petten, The Netherlands) 167
